PROFESSIONAL EXPERIENCE

Java Full Stack Trainee JSpiders, Noida — Feb 2025 – Present

- Developing scalable backend services using **Spring Boot** and **Hibernate** for enterprise-level applications.
- Implementing **JWT** and **RBAC** security protocols with Spring Security for stateless user authentication.
- Building dynamic frontends with **React.js** and integrating high-performance **REST APIs**.
- Optimizing **MySQL** database schemas to ensure low-latency data retrieval and high data integrity.

PROJECTS

Hospital Management System (Full Stack Project) [Live Demo](#)

- Engineered a scalable system with Role-Based Access Control (RBAC) using Spring Security to manage 4 distinct user levels.
- Developed RESTful APIs and automated billing modules, reducing manual entry errors and streamlining stock tracking.

Voting Survey System (Full Stack Project) [Git Repo](#)

- Built a secure platform using JWT for stateless authentication, ensuring data integrity for large-scale surveys.
- Optimized MySQL schemas and queries to handle high-volume traffic with minimal latency.
